Folon Unseen

20/03 > 29/09/24

I. Press Release

While many artists of his generation were embarking on the path of conceptual art, Jean-Michel Folon happily explored traditional art techniques throughout his career, including watercolour, bronze sculpture, ceramics, etching, stained glass and even tapestry! He also collected all kinds of objects, as starting points for future works.

This new, made-to-measure exhibition showcases Folon as a fascinating and little-known artist, a compulsive collector eager to explore his world through a multitude of media. Taking place in the majestic yet intimate spaces of one of Victor Horta's first houses, the exhibition presents around a hundred works and objects that reflect the endless, intriguing and abundant creativity of the Belgian artist.

A Maison Autrique exhibition in partnership with the Fondation Folon, and part of the '[Folon. A journey in Brussels](#)'.
